

Resetting SAP password

Wednesday, April 6, 2022 8:23 PM

Step1:

Print Login with your respective login credentials(mail, password) in FortiClient VPN which are provided in your Zimbra mail.

VPN Name

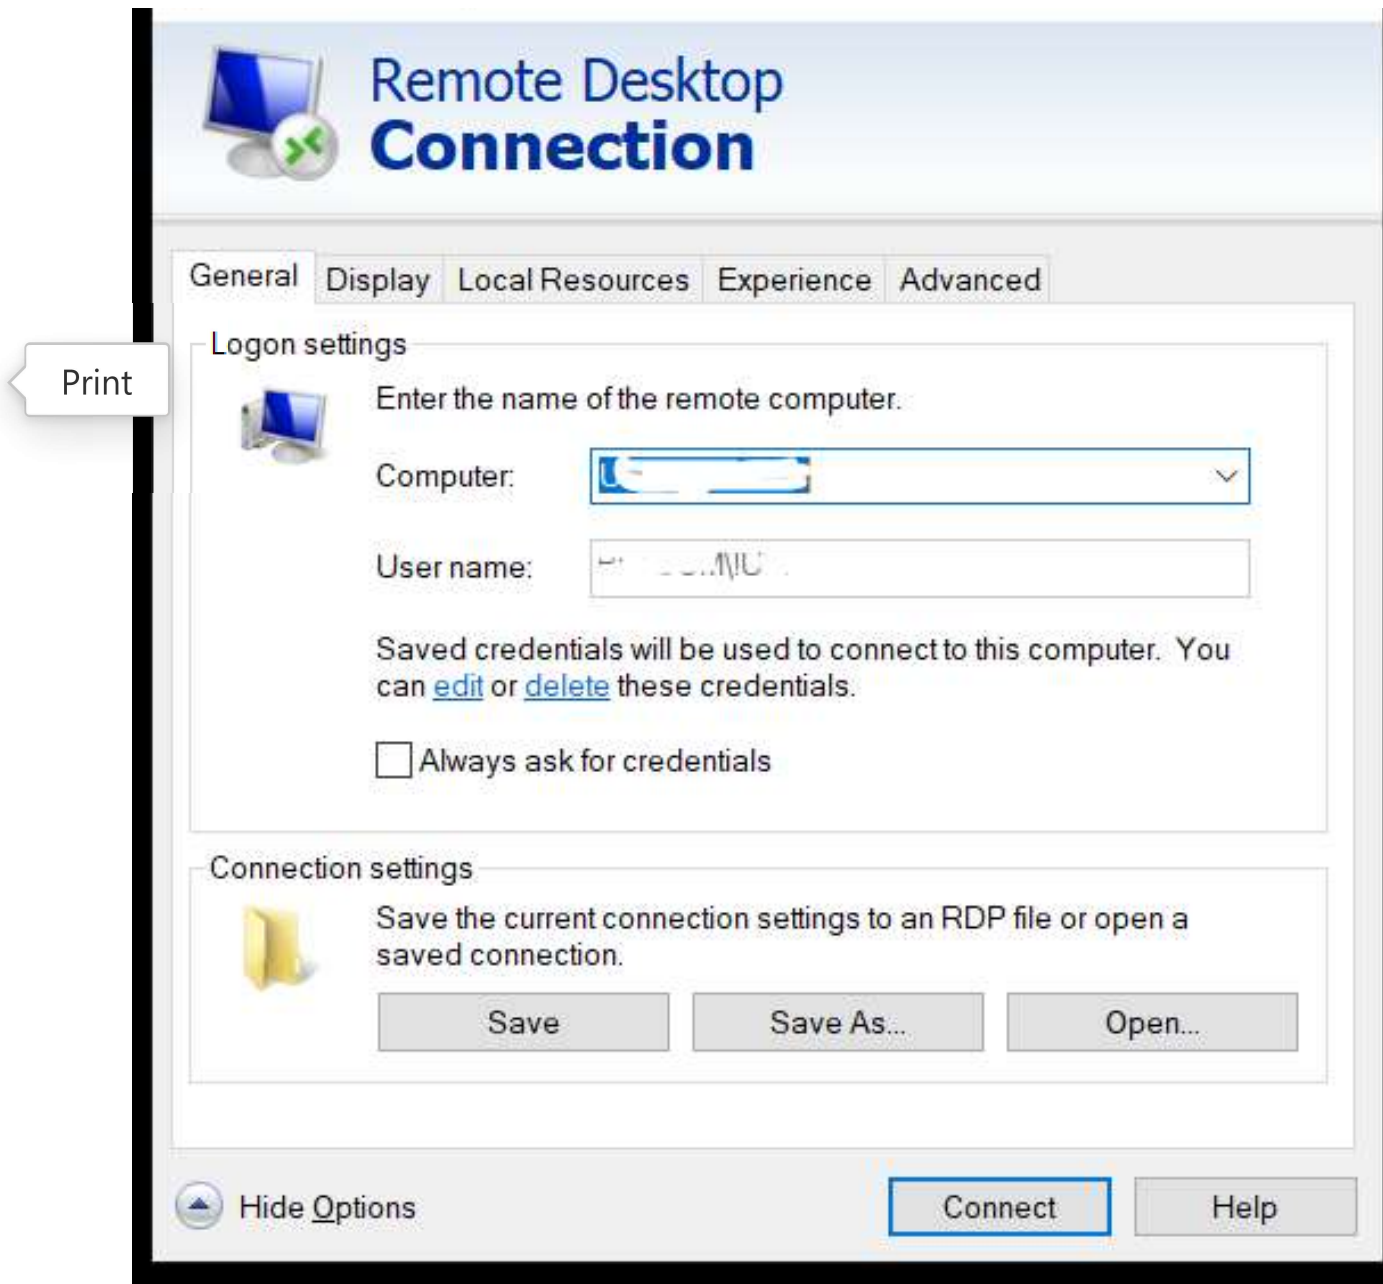

Oregon Tool - Oregon-USA

SAML Login

Step2:

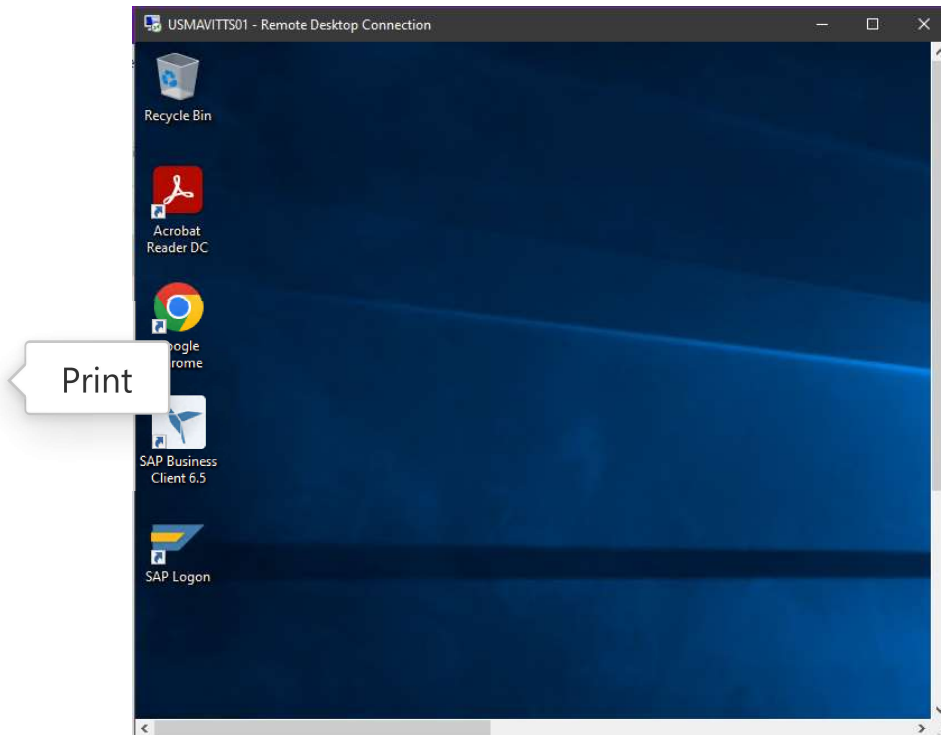

Open remote desktop Click show options then enter credentials(computer name and user name = domain name which is provided by client and AltID which is provided in Zimbra) and connect.

Step3:

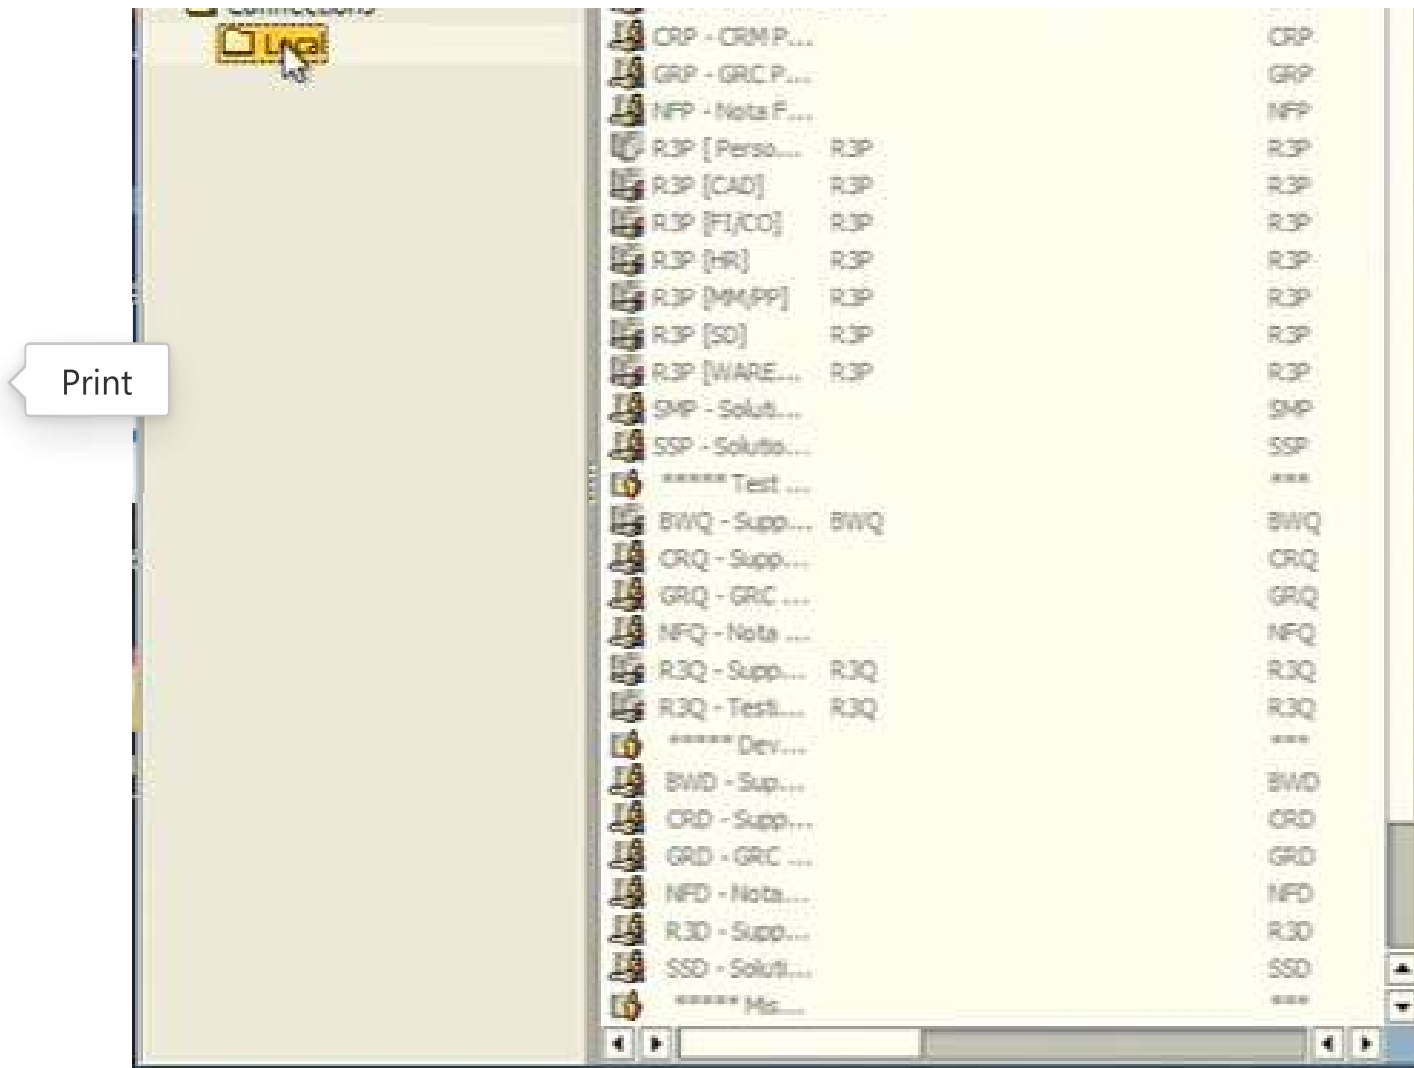

Connect to the virtual machine which contains all the required software's which can be used. After connecting it appears as the picture given below:

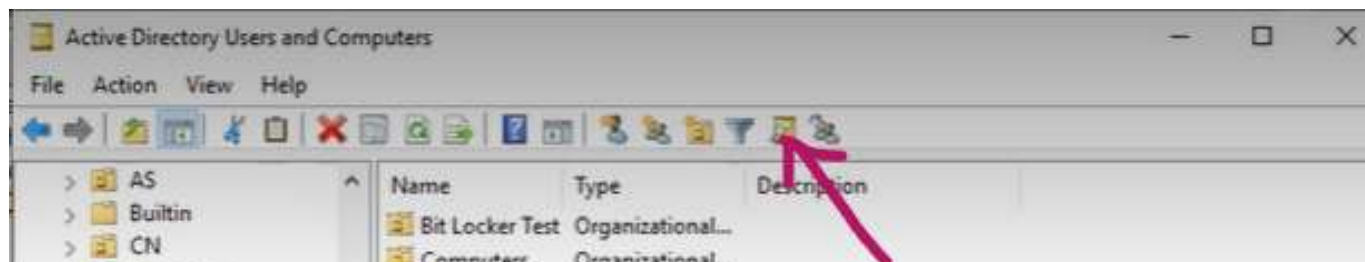

Step4:

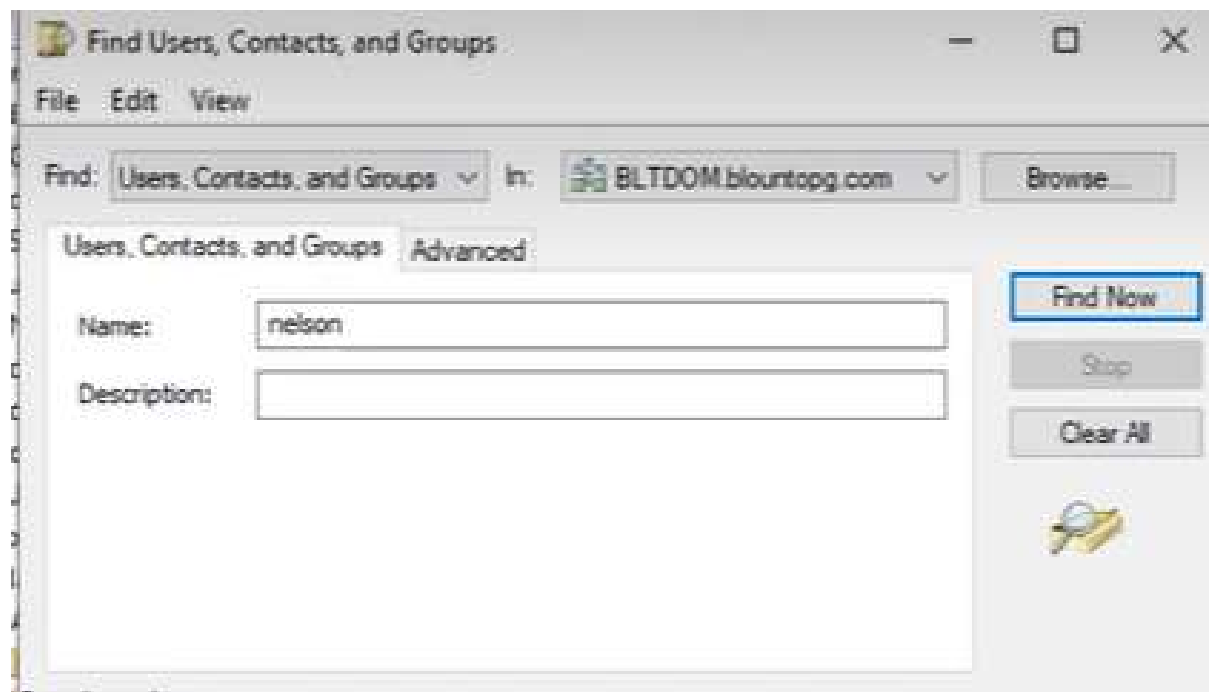

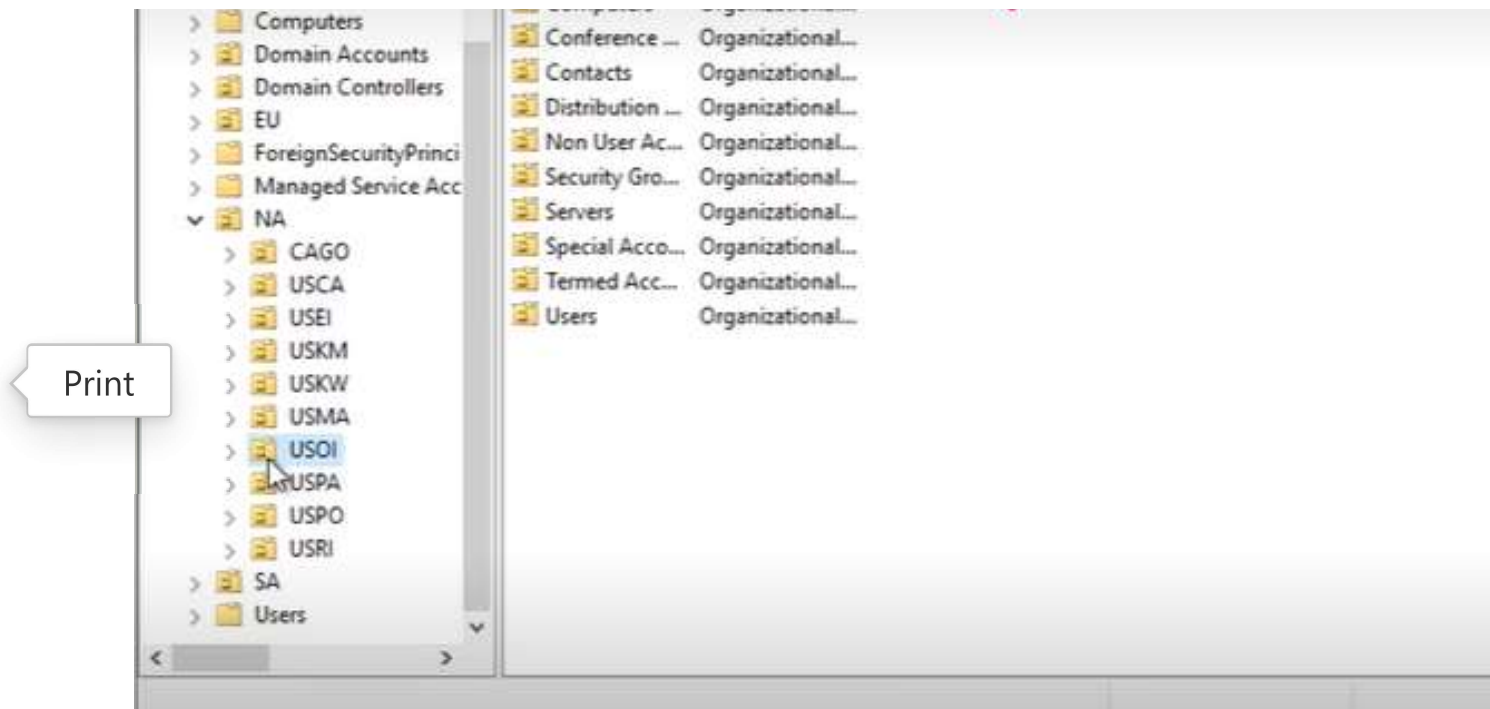

Open SAP logon application login with our given credentials.

☆ To find user name open active user and computer 'find objects in active directory domain services'

Search results:

Name	Type	Description
 Nelson Molina	User	Global IT Service Desk Manager
 Nelson E. Molina	User	USOI OU Administrator

☆ Example take user name is nelson and then click 'find now' then we get two accounts one is bang account and another is regular account.

Print

Nelson Molina Properties

Member Of	Password Replication	Dial-in	Environment
Sessions	Remote control	Remote Desktop Services Profile	COM+
